National Symposium on High Power RF & Microwave (HPRFM—2013)

4-6 September 2013

Institute For Plasma Research, Bhat, Gandhinagar 382 428, Gujarat

Topics

High Power RF & Microwave Sources (Tube Based & Solid State)
Transmission Lines, Waveguides & Antenna
RF & Microwave Components
RF & Microwave Instrumentation (Detection & Measurement) & EMC
Industrial, Scientific, Medical & Other Applications
DC and other Power Supplies for RF & Microwave Generators

RF & Microwave play important role in the development of technology for the benefit of mankind. There are many areas where RF and Microwave are being extensively used. Some of them are accelerators/beam technologies, space program, plasma/fusion reactor research, medical, defense etc. Different organizations in the country are working extensively in these fields and new innovations are being carried out.

This symposium will focus on the activities being carried out in High Power RF & Microwave at different organizations across the country. Persons working in the similar areas will share their experience. Similar activities being carried out at different organizations may be of mutual benefit.

This symposium will be of use for those who are working in the development and use of High Power RF & Microwave in their work.

Who can attend ?

Scientists, Engineers, Faculty, Research Scholars and Students in India, working in the areas of High Power RF & Microwaves, may attend the Symposium.
