Code	Workshop Topics
100	Indian Accelerators Program
200	RFQ Design
300	Components and Technologies for RFQ Accelerators
400	Fabrication Techniques & Facilities for RFQ Accelerators
500	Operational Experience of RFQ Accelerators

About the Workshop - In India significant progress have been made on the RFQ based accelerator development by many organizations, such as BARC, VECC, RRCAT, IGCAR, IUAC, TIFR to be very specific. Institute for Plasma Research under aegis of Indian Society for Particle Accelerators (ISPA) is organizing the two days workshop to share the knowledge and experience as well as to access the future need to make this prosperous scientific and engineering field more strong in India. Invited talks, contributory talks and expert panel discussion will be held during the workshop for a close interaction.
