

International Union of Pure and Applied Physics

Young Scientist Prize in Plasma Physics

Awarded to Pascal Chabert

by Commission on Plasma Physics – C16

in recognition for having, at an early stage in his career,
made important contributions to the understanding of
plasmas and plasma sources used in plasma processing,
especially in connection with the physical size increase of
the processors currently used commercially.

Signed R. Weynants
COMMISSION CHAIR

Date July 16, 2007
