

IPR Library Organizes A Talk on

Writing an Impactful Manuscript for Journal Publication: Insights from an Author, Reviewer and Editor

About the Talk

The author will give tips to write manuscripts which will be suitable for journal publication. Insights from an author's, a reviewer's, and an editor's perspective, delineating the important aspects of the manuscript for each persona and thus catering a manuscript to meet all their needs will be shared. Journal selection and submission, the peer review process and what to do in the face of rejection, will be discussed. The author will be speaking briefly on scientific publishing ethics and more specifically the responsible use of AI in scientific writing. He will also talk about the existing policies around AI in scientific publishing and how to avoid common pitfalls associated with it.

Date: **Sep 22, 2025 (Monday)** Time: **11:00 am - 12:00 noon**

Venue: **IPR Seminar Hall**

About the Speaker

Dr. Reeshab Goenka is currently working as a Senior Scientific Editor in the Author Heroes team at Elsevier for almost 4 years now. He currently works on the Next Energy, Biomass and Bioenergy, Energy, Energy Conversion and Management, Energy Nexus and Heliyon journals. He has directly helped >500 authors to acceptance via Elsevier's Article Transfer Service and the handling of transferred articles. He completed his Ph.D. in 2020 at the Department of Energy Science and Engineering from Indian Institute of Technology Bombay, Mumbai, working in the Fuel Cell Research Facility, where his focus area was Microbial Fuel Cells. He has completed a bachelor's degree (B.Tech) in 2011 in Biotechnology from Heritage Institute of Technology, Kolkata, and a master's degree (M.Tech) in 2013 in Energy Engineering from National Institute of Technology, Tiruchirappalli. He has previously worked for 2yrs and 9months as a Research Associate in the Advanced Biofuels Division at The Energy and Resources Institute (TERI), New Delhi, where he was part of the DBT-Centre of Excellence on Advanced Biofuels and Biocommodities. Reeshab has authored and co-authored 3 journal publications and 8 conference proceedings.
