

# DEEPTECH INNOVATIONS: FOR THE FUN OF IT

This engaging talk will walk the audience through the exciting journey of Omspace Rocket & Exploration Pvt. Ltd. Since its inception in 2020, the start-up has embraced the scientific, technological and financial hurdles as they came - right from being one of few start-ups in the domain of rocketry in India to the struggle for funding. It would be interesting to hear how he and his team have found ways to cross the hurdles and make the company to what it is today - one of the few companies that truly believe in democratisation of the space.
